

ALAMITOS HEIGHTS CUSTOM HOME

5601 COLORADO

\$765,000

This custom Alamitos Height home was built in 1964 on a full size 6,500sf lot. There are two bedrooms and 1.5 baths. All rooms are *VERY* spacious.

The formal living room has a fireplace and opens to the back yard through double glass sliders. This room could quite easily be converted to a master bedroom. The two exiting bedrooms are extremely large with the main bath located between both bedrooms.

The expansive family room has vaulted open beamed wood beamed ceilings, large bay window, a wood burning fireplace, and glass sliders that open to the back yard.

The kitchen overlooks the back yard, has plenty of counters and lots of storage. Adjacent to the kitchen is a large utility / laundry room with a 1/2 bath and direct garage access.

The home has been recently updated with new interior paint, new linoleum and carpet.
